The Council for the **seventh year** successfully conducted the **centralized evaluation** of answer scripts for the **ICSE** and **ISC** Examinations.

ICSE had **422** centralized evaluation centres and **ISC** had **485** centralized evaluation centres across the Country.

This year the results have been declared two weeks earlier than the previous years. The reason being the continuous hard work and the unflinching commitment of the Staff of the Council and our decision to go with the implementation of ‘**Orion LICR Solution**’. The acronym **LICR** stands for **Live Ink Character Recognition** which is a patent pending innovative technology developed and implemented successfully by Orion India Systems Private Limited (www.orioninc.com) for the first time in the world.

Orion LICR technology captures and digitizes marks entered on the top sheets of answer scripts and instantly encrypts and transfers the captured data to the Council's cloud-based servers directly from the evaluation centres. This significantly reduced the time required for compilation of the results. This user friendly system automatically totaled the marks awarded by the Examiners and also applied the question paper rubrics, hence eliminating any possibility of

manual totaling and manual rubric application error.

The **ISC Examination Mark Sheets and Pass Certificates** will reach the schools latest by **10th May 2016**.

The **ICSE Examination Mark Sheets and Pass Certificates** will reach the schools latest by **14th May 2016**.

Gerry Arathoon

Chief Executive and Secretary
