

## Council's National School Sports & Games

The Council has a firm belief on the holistic development of the child, in body, mind and spirit. Though academics and examinations are its prime concern, the Council endorses the importance and significance of sports and games in a child's life.

The Council has therefore embarked on a mission to conduct the Council National School Sports & Games annually to identify talents at the school level and provide these children an opportunity to develop and reach their full potential. This is also in keeping with the Government's initiative of identifying sporting talent among children at the school level and developing Sports Schools through the Khelo India School Games and the Khelo India Scheme respectively.
