

COUNCIL FOR THE INDIAN SCHOOL CERTIFICATE EXAMINATIONS, NEW DELHI

REQUIREMENT FROM BIDDERS FOR THE PROPOSAL

BID SUBMISSION

The Council for the Indian School Certificate Examinations (CISCE), New Delhi, a premier National Examination Board in the country invites proposals for Information Technology (IT) and Application Development and Maintenance (ADM) Services for its operations. Bidders are requested to propose the best and most cost-effective solution to meet our requirements while ensuring a high level of service.

OUR REQUIREMENT

CISCE is seeking a well-established and reliable technology service provider who can take responsibility for managing our IT infrastructure, software applications and technical support processes.

The chosen vendor will be expected to chart a technology upgradation roadmap that will achieve the following objectives –

- 1) Address cost optimization opportunities utilizing cloud infrastructure services and SaaS operating model
- 2) Re-engineer CISCE's operational processes to improve efficiencies and eliminate time/delivery risks in meeting our commitments to schools and students
- 3) Build the foundation for CISCE's future vision of a fully digitally-enabled operation

This will be an excellent opportunity for you to showcase your expertise in the application of best-in-class technology to the education domain. CISCE is the premier brand in the nation's educational landscape and is poised to expand its reach across and beyond the nation. The right technology partner will play an important role in our growth.
